STARLIGHT DISTILLERY

SIMON'S 1794 AMERICAN DRY GIN

What makes our craft **SIMON'S 1794 GIN** so unique are the raw botanicals. We source the highest quality botanicals possible from local growers and across the world.

- Named after the founder of Huber's, Simon Huber, with 1794 representing the birth year of Simon.
- Our production process incorporates 12 botanicals some of which are sourced from our farm.
- Styled as an American Dry Gin with soft tones of juniper, citrus forward, and finishing with a subtle spice note to round out the softness.
